## ABOUT MARMORIN

Marmorin is a Polish manufacturer of composite bathroom products and has been part of SCHOCK since 2022. Founded in 1985 and headquartered in Wschowa, the company manufactures shower trays as well as washbasins and freestanding bathtubs. Marmorin specializes in OEM/private-label and ODM/custom-design products and customers.

## OUR VALUES

### SUSTAINABILITY

Reducing our carbon footprint is the core corporate and product goal. Innovations like EcoMulticast show that cold curing technology in combination with using new resources can show the way into our greener future.

### AFFORDABILITY

Aligning efficiency with technology gives our customers a competitive and individual portfolio of products with low start-up costs and economical shipping.

### FLEXIBILITY

Complex product configurations and the ability to fulfil large volumes of highly configured items are advantages we offer our customers. Providing a unique product portfolio flexible enough to suit our customers' needs and wishes is what drives us.

### DESIGN

Our trendsetting in-house expert team is at your disposal when it comes to the individual creation of designs, colours and finishes. Team, technology and ideas are ready to be discussed with you.
